DETAILED ACTION

Allowable Subject Matter

1. Claims 38-51 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's October 13, 2006 Amendment and REMARKS provide a clear line of demarcation over the prior art. The prior art does not disclose, nor suggest, either alone or in combination, Applicant's features of a supply chain management system comprising a predictive diagnostic condition management system using a radio frequency transmitter, an off-board predictive diagnostic condition management system space apart from said predictive diagnostic condition management system, a software based distributed secure information system and the transmission of a failure code, in combination with the other claimed features.

Further, Applicant's October 13, 2006 Amendment and REMARKS remove all 35 USC 112 issues previously presented.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Further pertinent references of interest are noted on the attached PTO-892.
